# TUL – a helpful, safe and protective means of tool storage and transportation.

The TUL units from Kelch are designed to provide for the safe storage, transportation, and accessibility of high-quality precision tools. The system includes mobile trolleys and storage cabinets for the accommodation of the renowned TUL tool carriers.

In designing the system, particular attention was given to providing for safe handling, good mobility, flexibility in everyday use, and ample load bearing capacity. The result is a system for the protective transportation and ready accessibility of your tooling.
