

Any part, any manufacturer When you're looking for a part from a European or Asian manufacturer that you've never heard of, we can help. We can supply virtually any component from any manufacturer.

No surprises Our prices are FOB Rockford, Illinois. They include all manufacturer charges, international shipping costs, customs clearance, and duty expenses. In addition, we handle all international shipping paperwork and details. There are no hidden or unexpected costs!

Knowledgeable people To help you work through those foreign nameplates and manuals when trying to identify a part, many of our employees speak multiple languages. In addition, our employees have significant technical experience with machine components and their manufacturers, so they will understand what you need.

Fast delivery Need something quickly? Personalized service and our efficient shipping channels get the parts that you need fast.

Please complete the form as completely as possible—we understand that not all information will be applicable or available. If needed, feel free to use additional blank sheets.

Fax your request to us at 815 962-4600.
